

Say YES to
WATER SMART LIVING

Bathroom catalogue 2021/2022

WATER SMART LIVING

Sustainable water use can help us achieve positive, long-term change. But how do we get there? By making more conscious decisions about our consumption habits – using intelligent solutions that can help us access water in a smarter, safer and more convenient manner.

At HANSA, we've spent several decades working towards this goal. Crafting, engineering and designing faucets and showers that aim to make us all more aware of water. For a smarter way of living.

So, when we say yes to Water Smart Living, we say yes to a future that keeps us healthier and safer while allowing us to reduce our water and energy usage. Whether we're at home or in a hospital, a school or any public space. Because we say yes to a way of living where smarter fittings can lead us to make more conscious choices. Not only for the sake of convenience, but for the sake of our environment, safety and health.

Say yes to Water Smart Living.

More than just a pretty faucet

We have made it our mission to create the smartest water experiences for everyone. With products that are not just beautiful to look at, but which are safer for you, your loved ones, and the environment. Using smart technology and smart product design.

Smart technology

Improve hygiene and safety by switching to our SMART showers and faucets – and save water and energy in the process. Using Bluetooth® technology, our products offer latest connectivity technology so that you can monitor and control your consumption in real-time.

Sustainable solutions

With their sleek design and water-savings features, our products perfectly combine intelligence and style. And there's more. Made from the highest-quality materials, our products are also incredibly durable. So that you can save thousands of litres of water using faucets and showers built to last.

Health & safety

Our touchless faucets minimise the spreading of viruses and bacteria, while anti-scald features in our fittings prevent burn injuries. In addition, by only working with high-grade materials such as dezincification and corrosion-resistant brass or advanced composites, you will always get water that is pure and clean.

Convenient design

Designed for easy installation, maintenance and daily use no matter your physical requirements or work environment, our faucets and showers place great focus on flexibility and convenience. And, available in a range of striking designs, we have created a family of products which make your everyday life easier – while matching personal style.

Reduce water consumption by up to 50% with a SMART faucet*

*<https://www.biorelief.com/blog/motion-sensor-faucets-save-water>

Touchless

Choose one of our touchless faucets and cut your water consumption in half.

Transform your habits

Choose a digital hand shower designed to help you change the way you view and use water in real time.

Sustainable change with real impact

Choose a better future

In today's world, long-term sustainability is a high priority for every one of us. Our products are designed to let you continue enjoying water while helping you re-think how you use it. For good.

With the right faucet, **reduce water consumption up to 60%****

**Based on one person showering for five minutes a day, 365 days a year. With each shower using approximately 12l/min at a minimum temperature of 38°C.

Choosing the right thermostat

With our smart thermostats, adjust temperature quickly and easily and remove the need to run water unnecessarily, as you would with a traditional two-handle mixer – reducing your consumption up to 60%.

Long-lasting

Choose a fitting made from the finest and most durable materials, designed to last you a lifetime.

Faucets that give you exactly what you need

Levers in any shape

Wide range of levers for a wide range of needs.

Spouts of ranging height

Spouts of varying height help make the most of every basin type.

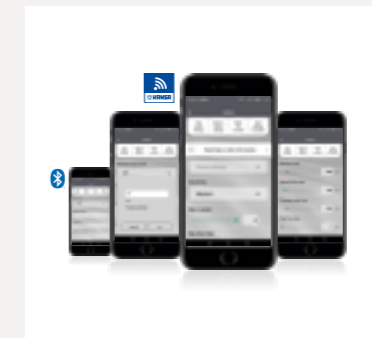

Adjustable aerator

Re-position your aerator to adjust water flow and prevent splashing.

Fittings that stand out

With our new Matt Black Edition, we combine state-of-the-art fittings with alluring design. Giving you the best of both worlds.

Monitor your faucet

With HANSA Connect, control and manage your faucets to meet your exact needs.

Greater flexibility

Our faucets come with either a top or side lever, and you can also choose between touchless, remote controlled or even hybrid models.

Real-time feedback

View your water and energy usage when showering and re-shape your consumption habits.

Wellness programme

Give your body and mind the treatment they deserve with our Wellness water-therapy programmes.

Various spray options

Whether you want a shower designed to wake you up or help you wind down, choose from a number of spray options and make your experience unique.

Functionality meets everyday life

Whether you need a touchless faucet with a tall spout, or a shower system that can help change the way you consume water and energy. If you think a hybrid faucet better suits your home life, or if you want to control your fittings from your phone. Whatever you set your heart on, we've got it. So that you can enjoy faucets that give you ultimate comfort.

We also strongly believe that “smart” should not be limited to high-performance products that come at a high price. So, we’ve found a way to add smart options to every one of our product categories. Now, that’s SMART.

Digital hand shower

Change the habits of a lifetime and vastly reduce your water use without interrupting – or limiting – your daily routines. The simple interface on our digital hand shower allows you to view your water and energy consumption in real time, making it easier for you to manage your usage.

Touchless faucet

Say goodbye to running water unnecessarily with our range of touchless faucets. Infrared sensors designed to detect hand movement and nothing else mean water only flows when you want it to – helping you make huge water and energy savings over the course of a lifetime.

Intelligent technology

We want you to use water more wisely – just as we want you to get the best experience out of your fittings. With our HANSAEMOTION Wellfit technology, get the best of both worlds by introducing a sustainable water therapy programme to your shower routine.

With Bluetooth® connectivity, experience a world of possibilities

MONITOR THE FAUCET

- Open and close faucet
- Activate cleaning mode
- Email reports
- Access product details: product type, battery life
- View total consumption
- View time to next automatic flush
- View weekly automatic flush schedule
- View product location

ADJUST THE FAUCET (Password-protected access)

- Input maximum water flow time
- Automatically adjust after-flow time
- Change sensor sensitivity
- Change cleaning mode time
- Activate and schedule next automatic flush
- Select automatic flush time and flush mode
- Adjust waterflow to calculate consumption
- Reset trip counters
- Reset to factory settings
- Change password

Using water wisely – through the magic of technology

At HANSA, we know that ‘smart’ is the future – as do you. With our growing range of SMART faucets and showers, we are here to guide you on your journey to choosing fittings that are intelligent, convenient and beautiful to look at. Because, if the rest of your home is going to be filled with increasingly intelligent technology, why should your kitchens and bathrooms be any different?

Designed to protect you and your family

17% of serious childhood burns are caused by tap water

*<https://injuryprevention.bmj.com>

Clean

Our faucets with HANSAPROTEC are made with nickel-free waterways and contain less than 0.3% lead for the highest quality water.

Safe

Whether concealed, exposed or mounted under the washbasin to support any faucet our thermostats are designed to keep you safe by eliminating the risk of burn injuries. Ensuring housing is kept cool and that water is always supplied at a safe and comfortable temperature.

Secure

With a built-in safety lock set at 38°C, our anti-scald feature is designed to keep your family safe from hot water burns.

Hygienic

Our faucets are easy to clean and can be operated with minimal to zero touch for optimal hygiene.

Reduce up to **80% of bacteria** with touchless faucets*

*Mäkinen R., et. al. (2013) Manual faucets induce more biofilms than electronic faucets

Award-winning and designed
to draw you in

Give your fittings the attention
they deserve

We use water every day. To wash our hands, take a shower, or wash the dishes. And for something that plays such a central role in our lives, style is important. That's why our durable fittings place design and technology on the same level. For long-lasting performance and beauty you can rely on for years to come.

Smarter fittings for future generations

On average, we use our bathrooms 2,500 times a year. That's why we design smarter. To make products built to last – with features made for the future.

As a European manufacturer with 1,400 employees based across 20 countries, we are an industry leader when it comes to delivering high-quality fittings that enable people to make smarter, more conscious choices.

With a passion for quality craftsmanship, sustainable solutions and innovative technologies, we have used our more than 100 years' of experience to drive forward a smarter way of using water – both in the kitchen and the bathroom.

Making our fittings perfect for a future built on Water Smart Living.

Company milestones:

The company, under the name Preß- und Stanzwerke GmbH, is launched by Karl Göhring in Zuffenhausen, near Stuttgart

1911

HANSA breaks new ground by launching Europe's first single-lever faucet

1962

Oras and HANSA, two of Europe's leading sanitary fitting brands, join forces

2013

Development of "Wellfit", the world's first shower system to offer three health and wellbeing programmes

2018

1913

The company moves its factory to the Möhringen district of Stuttgart, where it remains today. In 1921, the company is renamed HANSA Metallwerke AG

1976

Using infrared technology, the company starts producing touchless fittings for washbasins, showers and urinals

2016

The HANSABLUEBOX concealed system enters the market, ushering in a faster and more accurate installation process – to the benefit of both installers and end-users

2021

Launch of next-generation digital hand showers designed to help consumers save water and energy by providing real-time feedback on their consumption

Real-time feedback reduces water and energy consumption on average 22%*

Reduce your water and energy consumption

Choosing the right fittings

From the design, to the features and functions, there are plenty of things to consider when looking for a faucet or shower.

We use
our bathrooms
2,500 times
a year

Refer to our guide below for help narrowing down your search:

Be practical

Before you start shopping, consider some of the practical details. How many holes are in your sink or counter? Do you need a flexible spout which can be adjusted for reach and height to optimise your sink space? Once you've worked these details out, make a list of the functionalities you need to fulfill your daily tasks – from breakfast dishes to when you need to bathe and wash your baby in the bathroom sink – and we'll do the rest.

Don't lose your sense of style

Let's be honest, the first thing we all tend to look at is design. With that in mind, our fittings are made to be practical and durable without sacrificing style. So you can rest assured your bathroom or kitchen will look beautiful for years to come – with faucets guaranteed to deliver outstanding performance for decades.

Think ahead

As the world becomes more connected, it's time we all joined the smart movement. If you want to keep your family healthy and safe, and if you want to control your water and energy use. Even if you want help changing a lifetime of habits. We've got the intelligent features to guide you to a better way of living.

Fittings that deliver on every front

Choose the right fit for your needs

Want a more **SUSTAINABLE** life?

With our touchless faucets, set flow duration and temperature and use only what you need. And take things even further with fittings that give you real-time feedback on your habits.

Our fittings offer the perfect mix of sustainability and style.

Enjoy water and energy-saving features like our eco-button, which has to be pressed down to override set flow and temperature.

Is **CONVENIENCE** your thing?

Choose a thermostat with built-in shelving for extra comfort and convenience.

Switch between a swivel spout or pull-out spout for greater flexibility in the bathroom. No matter the design or size of your washbasin.

If you're working with a countertop sink or want plenty of space for hand washing, go for one of our taller washbasin faucets.

Looking for more **SAFETY**?

Anti-scald features: built-in THERMO COOL technology will stop your faucet from overheating, while a temperature safety lock means you can eliminate the risk of burn injuries.

In addition, a thermostatic pre-mixer can be placed under washbasins to further control temperature and avoid scalding.

Want to improve your **HEALTH**?

Give your shower a Wellfit upgrade and enjoy a variety of water therapy programmes designed to boost your body and mind.

Programme Wellfit using your Bluetooth-connected HANSA app and choose between the following options of your HANSAACTIVEJET handshower:

- Pulse spray – to relieve muscle tension
- Soft spray – to unwind and relax
- Pressure spray – to rejuvenate

And, if those options aren't enough, you can also create your very own programme.

Ready to safeguard your **HYGIENE**?

All but eliminate bacteria – and your risk of infection – with our touchless faucets.

The automatic flush feature built into our touchless faucets will prevent water stagnating.

Our functional hand shower can be combined with most of our washbasin faucets, further boosting your hygiene.

Looking for the **SMART** answer?

Buy any of our Bluetooth®-connected fittings and individualise settings using your HANSA Connect App. There's more: gather valuable insights on water and energy use, and, if you opt for one of our smart showers, build your very own Wellfit water therapy programme.

Choose your style

Contemporary

If you like soft forms and gentle, light colours, look no further than our contemporary fittings.

Architectural

Consider yourself a fan of minimalism? We offer a number of faucets that take their influence from geometric forms.

Urban

If you are drawn to urban design, we offer a range of slim faucets which will fit neatly into any living space, no matter how small.

Solitaire

Want a single faucet that will draw attention wherever it is placed? Have a look at some of our more visually striking models.

If you'd like a consistent look throughout your home, our faucet families have you covered. And if what you really want is mix of everything, well, we've got you covered there too.

The SMART way to a better future

Designed for your comfort and ease of use

As one of the first manufacturers to launch touchless faucets into the world – and now with our growing range of SMART products – we know how to create groundbreaking fittings that will make your life easier. Fittings that prioritise safety, hygiene and sustainability, and which can be customised and controlled via Bluetooth. Because who said you couldn't have it all?

Hygienic and safe for the whole family

Whether you live with small children, elderly relatives, or both – our SMART faucets are designed for every generation. As well as reducing the spread of bacteria by up to 80% compared to manual faucets, our SMART faucets minimise the risk of scald injuries and are designed to suit a range of budgets.

Eco-friendly without compromise

Anyone can save water – with the right faucet playing a big role. Our SMART and touchless faucets only run water when hand movement is detected, helping you reduce your water consumption by up to 50%. That's not all. Our faucets will also save you energy, allowing you to be more sustainable without sacrificing any comfort or convenience.

Reduce
up to 80%

HANSALOFT

HANSADESIGNO STYLE

*Eco-friendly:
Mikado® flow rate
set at 2l/min*

Style that is built to last

With **HANSADESIGNO STYLE**, optimise any urban environment – and let your personality shine. This product line seamlessly combines elegant design and functionality so that you can enhance your life for years to come.

Clear-cut design

Want a washbasin that is striking and distinctive? Then say hello to **HANSALOFT**. Influenced by clear, cuboidal shapes, highly polished flat surfaces and exquisite edges – our award-winning faucets will take your bathroom to another level.

Technology that stands out

Through the perfect mix of form and functionality, our **HANSALOFT** faucets will only operate when hand movement is detected. So you can carry out your daily bathroom routine in a more hygienic and sustainable manner – using a faucet that will maintain its shine for longer.

Available for:
Washbasin

A new level of hygiene – delivered with flair

Everyone should have access to faucets that offer great hygiene and ease of use, which is why **HANSADESIGNO STYLE** is made to fit a wide range of basins. That's not all. With unique and innovative features like our Mikado® spray, **HANSADESIGNO STYLE** also aims to bring a touch of elegance to any interior.

- Water efficient
- Hygienic and easy to clean
- Comes in several sizes
- Eco-friendly, with ability to set flow rate
- Remote operation via Bluetooth

Available for:
Washbasin

HANSALIGNA

80% of the most common diseases are transmitted by touch

Style that never goes out of fashion

With its unmistakable look and intelligent functionality, the HANSALIGNA series is the perfect combination of sophisticated design and contemporary technology. The rounded edges convey lightness and harmony, contrasting wonderfully with the clear-cut geometric pattern on the exterior.

Hand washing made easy

Our touchless HANSALIGNA faucet is intuitive, hygienic and highly sophisticated. Use water only when needed and reduce your consumption for good, and set water temperature to your exact needs to save energy.

HANSALIGNA is also available in matt black. Combining the latest touchless technology with striking design.

Available for:
Washbasin

HANSASTECLA

Beauty that flows from within

Imagine a faucet that lets you experience water in all its glory. A faucet that brings out the beauty of water through its timeless and meticulous design.

Enjoy the benefits of touchless technology

With infrared sensors designed to detect hand movement only, wave goodbye to excessive water and energy use – and enjoy a lifetime of savings.

Available for:
Washbasin

HANSAFIT

Reduce water consumption **up to 50%** using a smart faucet

Elevate your bathroom experience

With its extensive collection of safe, ergonomic and easy-to-use faucets, HANSAFIT is a highly versatile range with plenty of character.

Fit for a more convenient life

Our touchless faucets bring an extra layer of sustainability and hygiene to your bathroom – without forcing you to sacrifice your sense of style.

Individualise settings remotely

With built-in Bluetooth® capabilities, programme your faucet based on the needs of your household.

Available for:
Washbasin

HANSAELECTRA

A legacy of excellence

We've spent 30 years pushing the boundaries for electronic faucets. And it shows. Take HANSAELECTRA, our most popular touchless faucets to date. Simplistic yet stylish faucets which optimise hygiene and maintenance while helping cut your water consumption by up to 50%.

Full control at the touch of a button

Control multiple fittings via the app and set functions such as weekly automatic flush, sensor sensitivity and water flow duration – and discover just how much you can get out of your faucet.

Available for:
Washbasin

Stylish washbasin faucets built to last

Faucets designed to blend seamlessly into any bathroom

To create a harmonious bathroom environment means ensuring every aspect is well thought out. That includes faucets and sanitaryware. Which is why we've made sure our washbasin faucets are fit for every style and purpose.

Beauty that goes beyond the surface

Our durable washbasin faucets are not just beautiful, but sustainable. Making use of intelligent technology to help you monitor and reduce your water and energy consumption. For a safer, more comfortable bathroom experience.

Sophisticated technology that offers unbeatable protection

Faucets play a large role in our ability to maintain a certain standard of hygiene at home. Touchless faucets not only reduce the spread of bacteria, but are designed to protect you and your loved ones – allowing you to set a maximum water temperature, among other safety features.

The HANSA Matt Black Edition

The same reliable design. Now in black.

Imagine a faucet that meets your demands when it comes to style. In a strong, bold, matt black finish. A faucet that speaks to great quality inside and out, and which will change the way you view sanitary fittings for life. By offering you the perfect combination of beauty, connectivity and intelligence – for a bathroom that is guaranteed to stand out.

For bathrooms designed to inspire

Whether you need a single-lever mixer or a thermostat, we have the solution – and look – for you. But we haven't stopped there. One of the most striking things about our matt black range is that it has been designed to last. Because, our matt black coating offers so much more than a vibrant colour. It's a rich, durable, scratch-resistant coating designed to give you a bathroom you can enjoy for years to come.

ALESSIsense
design Rodrigo Torres

by
HANSA

The designer

Made in collaboration with leading Italian design house ALESSI and internationally acclaimed designer Rodrigo Torres.

“
In times where careful use of water, our most valuable natural resource, should have the highest priority, objects such as ALESSI Sense by HANSA represent an exemplary development.”
– Rodrigo Torres

ALESSI Sense by HANSA

Where beauty meets function

ALESSI Sense by HANSA is an award-winning electronic faucet that combines great design with usability and sustainability. Allowing you to save water in an innovative way without sacrificing aesthetics or usability.

Highlights

- Set flow duration, cleaning mode, and sanitation schedule
- Easy to operate via touch control
- Eco-friendly flow rate set at 4l/min for washbasin faucets

Available for:
Kitchen | Washbasin

How it works

Smart touchpad

Press the touchpad on top of the faucet for an eco-friendly six seconds of water flow. To increase duration up to 60 seconds, hold your finger down on the touchpad for slightly longer – repeating the motion to cease water flow. The semi-transparent display shows the flow duration in real time.

Multi-functional handle which can control temperature and flow

Operate the faucet using the temperature control handle. As a matter of safety and to prevent potential damage, the faucet is programmed to cut water flow after five minutes.

Functional hand shower as a smart add on

ALESSI Sense by HANSA is also available with a remote-controlled functional hand shower. This can be installed separately and is ideal for a wide variety of bathroom configurations.

Scan for augmented reality

HANSAMURANO

A modern classic with staying power

A delicate balance of glass and chrome, our classic HANSAMURANO has been admired by many over the years – to the point others have tried but failed to replicate it. So, for a unique faucet that is as simple to use as it is striking, look no further.

Available for:
Washbasin

HANSASTECLA

It's the little details that count

At HANSA, our aim is to create faucets that are as stylish as they are functional. Where every feature and design element has been well thought out, from the sleek and striking aesthetics to the adjustable aerator that creates a "waterfall" effect. Details that have been refined through years of experience. For a level of sophistication that appears utterly effortless.

Beauty that flows from within

Imagine a faucet that lets you experience water in all its glory. A faucet that brings out the beauty of water through its timeless and meticulous design.

360° design that leaves no surface untouched

In classic faucets the operating lever needs space to move, resulting in a visible and sometimes glaring gap. With our HANSASTELE range we've made sure to keep all gaps to a minimum, for faucets where all movement is fluid and part of the overall design. So you can enjoy their beauty from any angle – no matter where you place them.

Feel and see the difference

With faucets that provide a fascinating diamond structured waterfall effect, let HANSASTELE bring a touch of nature to your washbasin

It wouldn't be HANSA if we relied on looks alone: our innovative aerator is easy to remove and even easier to clean – meaning you'll never have to worry about a build-up of limescale

Designed to fit your surroundings with ease

With HANSASTELE, we've created a range of faucets as elegant and refined as you are. Faucets made to fit the design and layout of your bathroom with absolute precision, whether you have a freestanding basin sink, built-in solution or anything in between.

Top operated mixers in different styles

XL-Version for free-standing wash basin

Hear the click

The optical most attractive middle position of the swivel spout locks with a subtle click

Use the adjustable aerator to ensure water flows into the basin without any splashing

Ecology & Sustainability

- Touchless – helping you cut water and energy consumption considerably
- Durable – designed to deliver long-lasting performance
- Sustainable – set flow rate of 6l/min

Comfort, Hygiene and Safety

- Convenient – designed to fit multiple basin types and optimise all spaces
- Hygienic – minimal joints, smooth surfaces and touchless variants reduce formation of bacteria and make cleaning easy
- Safe – made with eco-friendly materials which preserve water quality

Technology & Design

- Smart – Bluetooth* functionality and multiple operation modes
- Stylish design which can be enjoyed from every angle
- Innovative – water flow designed to create a soothing effect

HANSASTECLA

Whether you want to bring an extra layer of class to your bathtub or give your shower a touch of elegance. No matter the features you need, and no matter the fittings you want. Let **HANSASTECLA** bring your vision to life. For a bathroom flowing with grace.

A free-standing bathtub is a centrepiece like no other. Make it stand out even more – with the **HANSASTECLA** floor standing bath faucet

You won't notice the reliable work of our specialists

Concealed products refine the bathroom by spatially separating design and function. While the reliable technology operates concealed in the wall, only the shiny trim kits are visible on the wall.

HANSA offers three concealed families with different focuses. For a maximum of flexibility and requirements of any kind.

HANSAMATRIX: The architectural solution

Products and their arrangements are based on a 25 mm grid. With placing only few functional parts visually reduced to the essentials and with the same basic dimensions, highly precise product arrangements can be realized. Available for thermostats and single lever mixers.

HANSABUEBOX. The universal solution

A universal base unit serves as the basis for a wide variety of functional units. For almost every HANSA product family, with countless design options and outstanding technical features. Available for thermostats, single lever mixers and touchless.

HANSAVARIO: The flexible solution

With HANSAVARIO, you can rely on the advantages of a space-saving and high-performance concealed solution with numerous design options. Simply select the concealed product that matches the desired design of the trim kit to enjoy more comfort in the bathroom. Available for single lever mixers.

HANSAFIT

Take your bathroom experience up a level

HANSAFIT is one of our most loved ranges offering a wide collection of ergonomic, easy-to-use and safe faucets fit for every purpose. Whether you want a single lever or touchless washbasin model.

Available for:
Washbasin | Shower | Bath | Kitchen

Comfortable and convenient

Our functional hand shower can be fitted alongside most of our washbasin faucets, offering you personal hygiene and flexibility in the bathroom.

Use the eco-button on the lever to increase flow – and learn to make more conscious decisions regarding your water consumption.

The HANSAFIT thermostat is ergonomically optimised, easy to use and maximally safe thanks to many well thought-out features.

Meet the touchless HANSAFIT

With our touchless models, bring an extra layer of sustainability and hygiene to your bathroom – without dropping your sense of style. Adjustable temperature limit for more safety in multi-generation baths.

HANSATWIST

Find your style

Whether you need to update your bathroom; no matter if you need a new faucet, shower, or bathtub, let HANSATWIST bring your vision to life. With a range of fittings that will meet your design and space requirements while supporting your sustainability efforts.

Available for:
Washbasin | Shower | Bath | Kitchen

HANSATWIST is also available in the Matt Black Edition

Single-lever mixer for washbasins: side-controlled, swivel spout

Single-lever mixer for washbasins: top-controlled, available in XL

Single-lever mixer for washbasins: top-controlled

Single-lever mixer for washbasins: top-controlled, loop lever, shower function, bidet variant

Single-lever mixer for washbasins: top-controlled, solid lever, shower function, bidet variant

HANSACARE

Made for every generation

Our HANSACARE range is made for every generation, from a child getting used to going to the bathroom on their own, to people with age related health issues such as visual impairment or decreased motor function. Providing users a soothing bathroom experience no matter their circumstances or environment.

Safe operation with modern, aesthetic design

For user-friendly, flexible handling, the ergonomic lever of HANSACARE single-lever faucets is not only easy to grip but can also be easily operated with the back of the hand.

- Supportive lever shape
- Multigenerational design
- Extended size for better use of space
- Rounded edges: easy cleaning and reduced risk of injury

Available for:
Washbasin | Shower | Bath | Kitchen

The sustainable way to shower

Comfortable and responsible

Our shower solutions use smart features like EcoFlow and real-time feedback to improve your wellbeing while teaching you sustainable habits. Like our stylish thermostatic shower faucets, which have been designed to help you cut water and energy usage up to 60% without any drop in comfort.

SMART technology for your convenience and safety

Our high-quality and stylish shower systems include a range of innovative features: with THERMO COOL, keep the housing on your thermostat cool to minimise the risk of scald injuries. And with our selection of water-therapy programmes, take care of your body and mind. No matter their unique benefits, all our features have the same goal: to make life more comfortable, relaxing and safe.

Quality details that make all the difference

Whatever HANSA shower solution you choose, you can be guaranteed of the following: all our showers operate quietly, our shower slider rails are easy and safe to use, shower heads can be easily adjusted, and installation is always smooth and quick. Our shower solutions also come in different designs: contemporary (round and geometric) and style (soft-cube).

*We spend
50 hours in
the shower
every year**

The perfect match: HANSA showers and thermostats

When it comes to your shower, don't settle for second best. That's why we always recommend combining our showers with a thermostat.

Whether you choose from our integrated shower systems or put the products together individually: Our Mix&Match suggestions on the following pages offer you maximum comfort, enjoyment and safety in every combination.

HANSAACTIVEJET Digital

With our new hand shower,
live life more sustainably

With our stylish digital hand shower, we'll make green living feel like second nature to you. Without any interruption to your daily comfort.

The power of real-time feedback

Real-time feedback

- Look to the LED display for detailed information on total water and energy consumption
- Use the LED to track water usage: green indicates low levels of water usage, while red indicates high levels

Clever design

- No batteries required: shower head powered by water flow
- Durable and sturdy structure made to fit all standard showers

Extra comfort

- Large shower head
- Wide and gentle rain stream

LED light signals water usage:

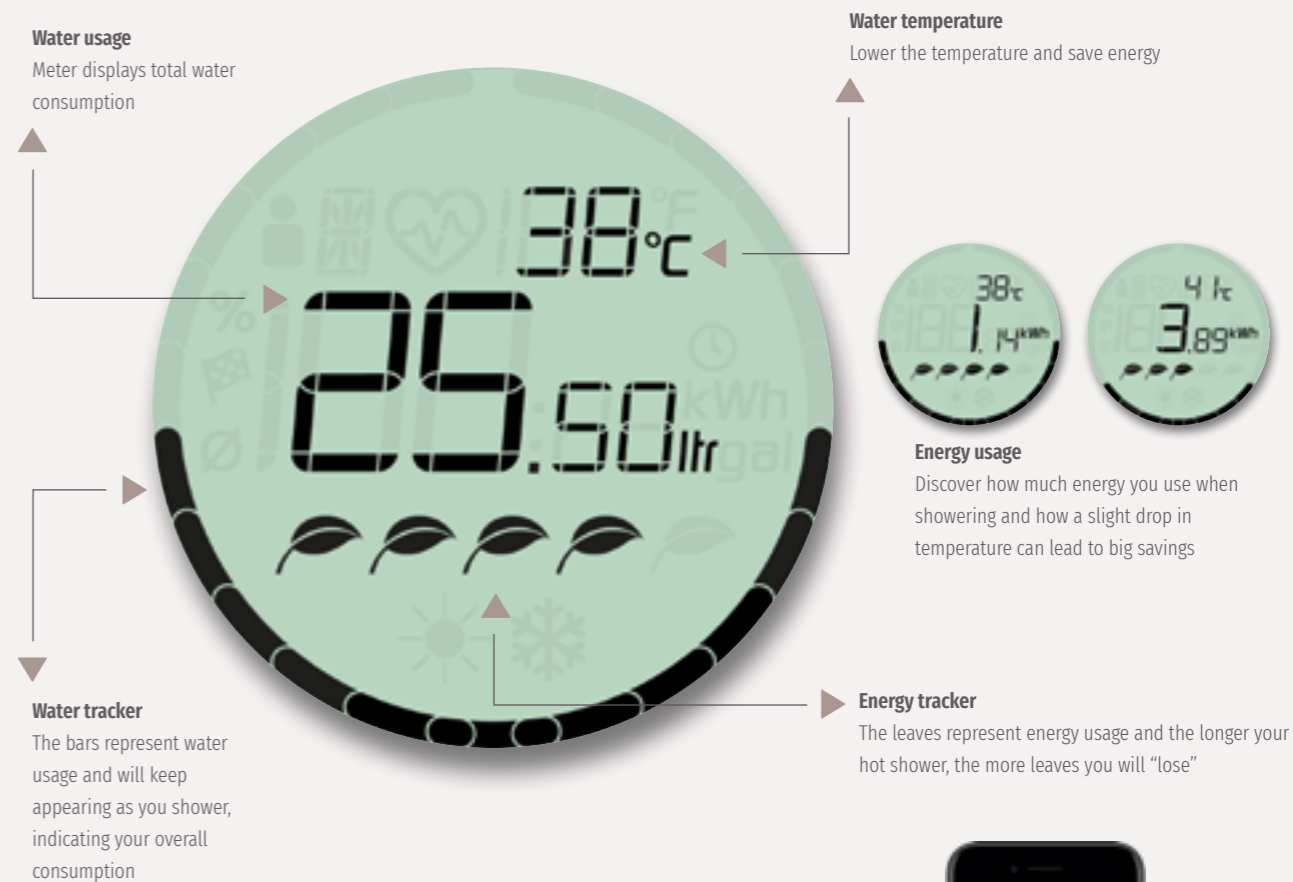

*With real-time feedback, reduce your water and energy consumption up to 22%**

*Management Science 2018 – Overcoming Salience Bias: How Real-Time Feedback Fosters Resource Conservation; Tiefenbeck, Goette, Degen, Tasic, Fleisch, Lalive, Staake (2016)

The power of real-time feedback

Studies show that real-time feedback is key to helping us change certain behaviours, with the average three-person household reducing their showers by one minute as a result. This amounts to roughly 22% less water every year – equivalent to 10,500 litres.

Connect to the app and transform your relationship to water

Connect the Bluetooth-enabled hand shower to your Digital Hand Shower App (DHS) to set water consumption goals, receive data on your long-term usage, and to access tips on saving water.

Download the DHS App today:

The HANSA Matt Black Edition

For an outstanding shower designed to stand out

Imagine a shower that is as comfortable and relaxing as it is stylish. Presented in a strong, matt black finish, so you can start your day with a morning routine that is as beneficial to your health as it is visually pleasing.

HANSAMICRA

Enjoy a rainshower that is consistently comfortable and safe, with a thermostat designed to give you the exact temperature you want.

Comfortable and safe

Our matt black thermostats for the shower and bath offer anti-scald protection while helping you make big water and energy savings. So you can enjoy a comfortable, smooth and sustainable bathroom experience.

Fittings that deliver on every front

Dreaming of a bathroom that is the perfect mix of style and sustainability? Look no further than the Matt Black Edition.

A range of fittings that provide anti-scald protection and which come with the added bonus of smart water and energy-saving features.

And, because we want as many people as possible to enjoy our high-quality and stylish fittings, we now offer our HANSABASICJET shower systems in matt black.

Concealed thermostats

If you want your matt black thermostat to really blend in with the rest of your bathroom we suggest opting for a concealed solution with HANSABBLUEBOX, our universal concealed mounting system.

Available for:

Washbasin | Bath | Shower | Kitchen

HANSAEMOTION

Wellness in every drop

With HANSAEMOTION, turn an ordinary shower into a 'Wellfit' shower and introduce hot and cold water therapy programmes to your daily routine. With the health benefits of such showering techniques having been well documented over the years, we created a shower systems designed specifically to ease tired bodies and stressed minds. For a better quality of life – every day.

Regeneration at the touch of a button

Press the Wellfit button, take the hand shower and choose from a range of hot-cold water therapy programmes. By placing the button centrally, we make it even easier to give your body and mind the care they need and deserve.

RECOVER

Through delivery of intense cold water intervals, the Recover programme is designed to revitalise users whose bodies have undergone intense physical strain. As well as soothing aching muscles, the programme can, over long-term use, boost the cardiovascular system.

RELOAD

For most of us, we need a shower to wake up. Reload's balanced hot and cold therapy programme stimulates blood circulation, helping activate the body and mind – and preparing people for the day ahead.

RELAX

Relax offers a gentle hot-cold water therapy programme that places greater emphasis on warm water. Helping people unwind and relax.

■ Cold

■ Hot

The individual touch

Looking for something more unique to your needs? Simply connect the thermostat to your HANSA Connect App and design a programme that exactly meets your requirements.

Saying yes to Water Smart Living is saying yes to faucets and showers that will reduce our water and energy consumption. It's saying yes to SMART technology that will make our homes, schools, hospitals and public spaces safer, for the benefit of our health. It's saying yes to the choices that will enable us to create positive change for people – and the environment.

That's why we're saying yes to Water Smart Living.
